Symbol	Comments	My preferred option
A	Acceptable as suggested	
*1	Acceptable by introducing Type code to define the difference	
*2	The reason that the original qualifier, EPs, was used is that EPs product covers quite a wide variety of products from leisure type tours to wellness, agricultural, manufactural, religious, adventurous tours, etc. To qualify by travel or leisure would limit the scope of related products. We prefer to qualify by EPs as shown, though this is an abbreviated word.	Leisure Water_ Source could better be qualified by Hot Water or just Water.
*3	An animal taken in a travel is usually a smaller one. I wonder a domestic animal such as a horse or cow could not be taken just as a pet to go with. If the suggested wordings mean the same, it would be acceptable.	Pet_ Animal, Details
*4	In CCL, I found 'Trade Settlement_ Payment Means. Details'. I wonder the word Settlement is missing.	
*5	It seems to be Seller_ or Buyer_ qualifiers should be taken to differentiate the role of party, and each of them has its own associations.	Seller_, Buyer_ or EPs Seller_, EPs Buyer_ could be.
*6	Financial Institution could either be Creditor's or Debtor's one when to settle payment. In Trade Settlement_ Payment Means. Details, I created Category. Code together with Type. Code to accommodate this.
