PROJECT: Business Standards for Sustainable Tourism

- **PROJECT:** Business Standards for Sustainable Tourism
- **Supporting VC's:** (T&T) @Ian Watt
- **Domain Coordinator:** (T&T) @Sachin Mehta
- **Project Lead:** @Tunghua TAI
- **Project Purpose:** Sub-Leads: Wanchun Hsiung, Shoji Nakagome
- **Editor:** Anthony Chien, Matt Chiang, Kazuyoshi Itagaki

Several of the UN SDG's have their application in the tourism industry. Tourism, both globally and regionally can have severe negative impacts on local communities, natural resources, climate and economies. The same applies to accommodation services (Lodgings) etc. The aim of the project is to clearly define sustainable tourism, as well as to set parameters for what can and what should not be considered sustainable tourism.

- **Project status:** Launch: 2019 April 01; Respond to Public Review by 2023-June-05; Publication (Plenary) 2023-Nov-10

- **Next Steps:**

The project deliverables are: 1: White Paper containing definitions, standards, guidelines for sustainable tourism: Technical Application of Business Standards for Sustainable Tourism

PROJECT: Travel Agency and DMC&DMO Package Tour Project

- **PROJECT:** Travel Agency and DMC&DMO Package Tour Project
- **Supporting VC's:** (T&T) @Ian Watt
- **Domain Coordinator:** (T&T) @Sachin Mehta
- **Project Lead:** @Tunghua TAI
- **Project Purpose:**

The project enables replacing the current emails and spreadsheets used to exchange tour package data between Travel Agencies (mostly SME's) and Destination Managing Company (DMC) and Destination Managing Organization (DMO) with harmonized data and comments. (Red arrows in the diagram below). This will deliver additional semantic data definition into the CCL, RDM establishing the ability to write standardized APIs.

- **Project status:** Launch: 2023-May-08; Completion 2024-Sep-30; Publication (Plenary) 2024-Nov-30

- **Next Steps:**

The project deliverables are:

1. A Reference Data Models (RDM) of and APIs specifications to cover the travel agency, Destination Managing Company (DMC) and Destination Managing Organization (DMO).
2. The other related Reference Data Models (RDM) and API specifications developed and information involved.

Proposed project leadership

Project leadership might be constructed by one Project Lead, two Sub-Leads, and one Editor as in the following.

Travel & Tourism Domain

PROJECT: API Transformation of EPs Technical Artefacts with Sustainability Claims

Supporting VC's: (T&T) @Ian Watt

Domain Coordinator: (T&T) @Sachin Mehta

Project Lead: @Sachin Mehta

Project Purpose:

Experience Programs Technical Artefacts Project (P1082) was completed in October in 2022, and some members in the tourism industry expect to have the artefacts transformed into API formats based on the newly constructed technical specifications of UNCEFACT to trade Experience Programs (EPs) much lighter and easier for the use of smart phones. Therefore, this project is proposed to make API applicable to the use of the trade of EPs, which will support the facilitation of their trade.

Project status: (Launch: 2023-05-08; Completion 2024-04-30; Publication (Plenary) 2024-05-31)

Next Steps:

- 1: Begin by working based on UN/CEFACT developing procedures.
- 2: Reviewing existing BRS
- 3: Work step by step to Complete the API Transformation.
